IFOAM Standards Committee

The Standard Committee is the Committee that develops the IFOAM Basic Standards for Organic Agriculture. It has international membership. **By invitation only**

The OSEA Advisory Committee

Is the Committee that guides the IFOAM project to develop Organic Standards for East Africa as well as consumer education and awareness raising. **By invitation only**

The CBTF Regional Steering Committee

Is the regional committee that guides the CBTF project. **By invitation only**

Policy Workshop

A workshop with organic policy makers from the East African Countries. A few observers from other African countries are also invited. The aim is to facilitate the policy development process. **By invitation only**

Field Trip

The field trip will visit organic operators. Main purpose is to inform the IFOAM Standard Committee about the conditions in East Africa and to have the RSTWG members to reflect on the realities on the ground compared to the East African Organic Standard (EAOS). Participants from the Policy work shop are also invited to the Field trip. **By invitation only**

Africa Organic Service Center

The IFOAM Committee in charge of the IFOAM Africa Service Center. **By invitation only**

Joint RSTWG – IFOAM SC meeting

The purpose of this meeting is to discuss the issues where the proposed EAOS are in conflict or fall short of the IFOAM standards and to identify issues not addressed in the IFOAM standards, but of relevance for EA stakeholders. **By invitation only**

Organic Standard Forum

See separate agenda and brief. **By invitation only**

Regional Standards Technical Working Group (RSTWG)

The Technical Committee in charge of the development of the East African Organic Standards. **By invitation only**
